

Label RF NT2350/White/4.000 per roll

#9943501 | RF 8.2 MHz

Nedap RF labels belong to the best performing labels world-wide. They are the only RF EAS labels that are tested 100% meaning not only each label will work, it will as well have a minimum performance. This provides a very stable detection and deactivation performance. Nedap RF labels are compatible with all RF 8.2 MHz systems.

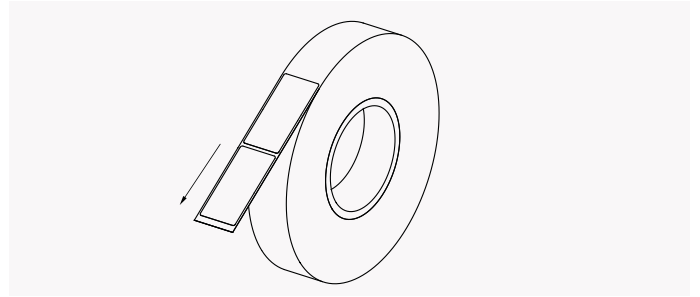

Label RF NT2350/White/4.000 per roll

This label with specific glue is especially designed for textiles e.g. pocket tags. Due to the large roll quantity this type is applicable for automatic application and source tagging.

Benefits

- Color: white
- Paper type: 80gr paper
- 4.000 pcs per roll
- Maximum OD size Ø320mm

Technical Specifications

Resonance frequency	8.2 MHz +/- 5%
Size	23 x 50 mm
Q Factor	70
Effective Signal Volume	0.7 liter
QV	49
Quantity per roll	4.000
Quantity per carton	20.000 pcs
Carton size	320 x 320 x 170 mm
Carton weight	11 kg
