

Label RF NT4040/Security Protected/Freezer/Yellow #5283361 | RF 8.2 MHz

Nedap RF labels belong to the best performing labels world-wide. They are the only RF EAS labels that are tested 100% meaning not only each label will work, it will as well have a minimum performance. This provides a very stable detection and deactivation performance. Nedap RF labels are compatible with all RF 8.2 MHz systems.

Label RF NT4040/Chilled food/Yellow/warning

The NT4040/FR/Security Protected Yellow paper label is a Food label especially designed chilled products. This RF label can be applied to products at a temperature between 0°C and 45°C / 32°F and 113°F. This paper labels is useful for products that have a short shelf life and has a clear message for visual deterrence.
