

Label RF NT5023-Mascara/White/Post-it

#9961674 | RF 8.1 MHz

Nedap RF labels belong to the best performing labels world-wide. They are the only RF EAS labels that are tested 100% meaning not only each label will work, it will as well have a minimum performance. This provides a very stable detection and deactivation performance. Nedap RF labels are compatible with all RF 8.2 MHz systems.

Label RF NT5023-Mascara/White/Post-it

This label is especially designed for curved products such as mascara, lipsticks. As it is more likely that customers carry health & beauty products around, there is no glue residue left behind when the label is removed.

Benefits

- Mascara label
- This label is especially for curved products
- Color: white
- Glue which makes it easier to remove the label and no glue residue will be left behind
