

Label RF NT-R40/Black

#9934073 | RF 8.2 MHz

Nedap RF labels belong to the best performing labels world-wide. They are the only RF EAS labels that are tested 100% meaning not only each label will work, it will as well have a minimum performance. This provides a very stable detection and deactivation performance. Nedap RF labels are compatible with all RF 8.2 MHz systems.

Label RF NT-R40/Black

Due to its round design this black label can be applied on Food and health & beauty products as well on the bottom of bottles and round packaging.

Benefits

- Color: black
